SR(IJ)EM FILM FEST JE MNOGO VIŠE OD FESTIVALA

SR(IJ)EM FILM FEST IS MUCH MORE THEN FESTIVAL

Sr(ij)em film fest je mnogo više od festivala dokumentarnog filma.

On je promocija, filma, autora, kulturnog nasleđa, ekologije, turističkih potencijala regije...

On je edukacija... Razvija osećaj za interkulturnost i multikulturalnost.

Drago mi je da svake godine sve više ljudi prepoznaće našu viziju i da je želi slediti.

Igor Čolak, osnivač i direktor festivala

Srem (Srijem) Film Fest is much more than a documentary film festival.

It stands for the promotion of the film, the author, the cultural heritage, the environment, the tourism resources of the region...

It is education... It develops a sense of interculturalism and multiculturalism.

I am glad that every year our vision is being recognised by more and more people willing to follow it!

Igor Colak, festival founder and director

Igor Čolak (1964., Vojvoda Stepa, Vojvodina), 1988. na VTS FTN Novi Sad stekao zvanje elektroinženjera. 1990. počeo rad u elektronskim medijima kao tehnički direktor. Narednih 15 godina radi kao radijski i TV voditelj u mnogim radio i TV stanicama u Srbiji i BiH. Kao dopisnik radio je za RTV – Vojvodine i "TV Super" – Subotica. Član UNS (Udruženje novinara Srbije). 2003. osniva svoju produkcijsku kuću "Bubamara Production". 2013. osniva Srem Film Fest, na osnovu čega u Splitu dobiće nagradu od European Federation Tourist Press (Evropska federacija turističke štampe) za doprinos razvoju turizma u Evropi. Autor je više dokumentarnih i korporacijskih filmova. Živi i radi u Sremskoj Mitrovici.

Igor Colak (1964, Vojvoda Stepa, Vojvodina) got his diploma of electrical engineer from Novi Sad Faculty of Technical Sciences in 1988. And in 1990 he started working in electronic media as technical director. Then in next 15 years he was a radio and TV presenter in many radio and TV stations in Serbia and Bosnia & Herzegovina. He was the correspondent of Radio Television of Vojvodina, and TV Super, Subotica. Member of UNS (Association of Journalists of Serbia). In 2003 he founded his own production, „Bubamara Production“ (Ladybug Production). In 2013 he founded Srem Film Fest and was awarded by European Federation Tourist Press, for his contribution to the tourism development in Europe. He is the author of several documentary and corporation films. He lives and works in Sremska Mitrovica.

NI POPLAVE, NI ZATVORENE GRANICE

NEITHER FLODS NOR CLOSED BORDERS

Ni poplave, niti zatvorene, zbog migrantske krize, granice, ne zaustavlja naš festival. Proputovaće Srem film fest kroz gradove i varošice: Rumu, Indiju, Vukovar, Ilok, Nijemce, Sremsku Mitrovicu, Staru Pazovu, Pećince i Hrtkovce a usput će se gosti nagledati lepotu Zasavice i Obedske bare. A kad se vrate u Termal, posle rekreacije u jednom od bazena banje, gosti će se pridružiti gledalištu i uživati u filmovima o prirodnim staništima, kulturno istorijskim spomenicima, turističkim destinacijama ili zajedno sa autorima proživljavati ekološke devastacije, gledajući filmove koji pokreću na aktivizam i probudi suvišnu potrebu očuvanja prirode i ekoloških resursa. Tako je Vrdnik treći put zaredom domaćin pregaocima, stvaraocima, istraživačima, po celoj planeti rasutim misionarima, otkrivačima prirodnih fenomena, ekoloških zajednica, drugačijih kultura i običaja. I kao što festival putuje od grada do grada, otklanja granice i ujedinjuje ljude, tako i filmovi preko umreženog neba stižu u festivalski Vrdnik, da bi se odate rasprostrli po salama kulturnih centara i bioskopa, po muzejima i prirodnim rezervatima. U sprezi sa evropskim i svetskim festivalima posvećenim ekologiji i turizmu SFF se izdvaja ne samo zbog specifičnog položaja mesta u kome se održava, banje ispod Fruške gore, već i od početka zacrtanog simbola, Buba Mare, još od detinjstva upamćenog i omiljenog božijeg stvorenja, oličenog kako u grafičkom obliku na svim festivalskim publikacijama, tako i po, od metalnog otpada izrađene skulpture, postavljene na ulaz u Termal. Skulptor i tvorac džinovske Buba Mare, umetnik Viktor Kiš, autor je i Gran prija, nagrade za pobednika Srem film festa. Odletela je naša Buba Mare u Brazil i u daleku Australiju, a obradovala prošle godine i autora iz Novog Sada. U koju zemlju, na koji kontinent, na čiju će ruku sleteti ovoga oktobra? Videćemo na završnoj večeri SFF-a.

Dragomir Zupanc, umetnički direktor

Dragomir Zupanc (1946, Ljubljana). Osnovnu školu i gimnaziju završio u Beogradu. Diplomirao na FDU 1971. Pisao za Student, uredio časopise F i Vidici, sarađivao u Sineastu, Ekraru, Politici, NIN-u i Danasu. Član AFUN i UFUS. Jeden od osnivača časopisa Filmograf. Urednik Filmskog programa SKC (1974 – 1977). Odgovorni urednik Zabavno rekreativnog programa RTCG (1985 – 1990). Saradivao i režirao na TV stanicama: Politika i Studio B. Umetnički direktor revije Dani slovenačkog filma u Beogradu. Zlatna medalja za režiju na BFDKF, Zlatna maslina za turistički film 2005., i Srebrna maslina za dokumentarni film 2006., na TV Festivalu u Baru. Živi i radi u Beogradu.

Neither floods nor closed borders, due to the migrant crisis, can not stop our festival. Srem film fest will travel through the cities and towns: Ruma, India, Vukovar, Ilok, Nijemci, Sremska Mitrovica, Stara Pazova, Pećinci and Hrtkovci and along the way guests will be satisfied with seeing the beauty of Zasavica a Obedska bar. And when they return to the Thermal, after the recreation in one of the spa pools, guests will join the audience and enjoy films about natural habitats, cultural and historical monuments, tourist destinations and together with the authors they will go through environmental devastation, watching films that inspire to start with activism and invoke awareness of the need to conserve our nature and ecological resources. Thus, Vrdnik, for the third time in a row hosts zealous workers, artists, researchers, missionaries scattered all over the planet, the discoverers of natural phenomena, ecological communities, different cultures and customs. And as the festival travels from town to town, eliminates borders and unites people, and films, through networked heaven are coming to the Vrdnik to spread out from there to the halls of cultural centres and theatres, to museums and nature reserves. In cooperation with the European and world festivals honouring ecology and tourism SFF stands out not only because of the specific situation of the city in which it was held, the spa under the Fruška Gora, but also because of symbol set from the beginning of the, Ladybug, which is since everyone's childhood a favoured of remembered of all God's creatures, and after, made real in a metal sculpture made from scrap, placed at the entrance to the Thermal. The sculptor and creator of the giant Ladybug, artist Viktor Kiš, is also the author of the Grand Prix, awarded to the winners of the Srem Film Fest. It flew out to Brazil and to distant Australia, and last year made happy an author from Novi Sad. In which country, in which continent, at whose hands will it land this October? We'll see on the final evening of the SFF.

ZELENO JE BILO ZELENO

GREEN USED TO BE GREEN

Zeleno je zeleno. Zeleno je bilo zeleno. Nekad davno. Prošlo svršeno vrijeme. Zeleno je danas zeleno sve manje i manje. Ne moramo u svimir da bismo uočili kako naša planeta polagano rđa. Nepočinstva prema Prirodi koja čini čovjek savremenog doba vraćaju mu se pravo u lice.

No, budi se i svijest i savjest jednog dijela savremenog čovječanstva. I jasna spoznaja da je udar na Majku Prirodu – udar na nas same.

Film tu može mnogo. A festivali filma, posebno ekološkog i turističkog, imaju zadatak da dodatno pritiskaju našu svijest i savjest.

Mi znamo da je i Srem Film Fest veliki i važan činilac tog osvješćivanja.

Održavamo ga i četvrti put, uz puno teškoća. Srećni smo što smo okupili toliko kreativnih i odgovornih razmišljanja o zelenom, i veoma nespokojni zbog slabe pomoći društvene zajednice i desetina neispunjениh obećanja.

Jer znamo da je zelena boja života.

Vladimir Perović, selektor

Green is green. Green used to be green. Once upon a time. Past Perfect Tense. Actually, green is being less and less green. We don't need to go to outer space to sense our planet slowly rusting. Atrocities made by contemporary man to the Nature had back to his face.

However, the consciousness and the conscience is awakening in a part of the contemporary humanity. Through the clear comprehension that the attack on Mother Nature means the attack on ourselves.

Film can do a lot in this field. And the film festivals, especially ecological and touristic ones, have a task to additionally weigh on our consciousness and our conscience.

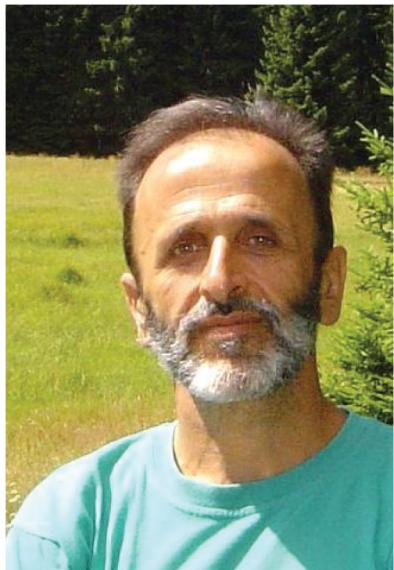

We know Srem Film Fest is a big and important factor in this awareness.

We made it for the fourth time, yet with many cumbres. We're happy to have gathered so many creative and responsible thoughts on green, and with a great discomposure caused by a weak support of the society and dozens of unfulfilled promises.

Because we know green stands for the color of life.

Film je sniman stop-motion tehnikom u periodu od septembra 2015. do juna 2016. na lokaciji Kameničkog parka. U toku ovih 10 meseci boravka u podnožju Fruške gore, bili smo učesnici i svedoci promena u prirodi u sva 4 godišnja doba. Osim promena koje smo samo posmatrali i beležili, našom maštom i uz pomoć

kamere stvarali smo filmsku magiju...

The film was made using stop-motion technique from September 2015 to June 2016, on the location of Kamenica park. During these ten months long stay on the surroundings of mountain Fruska gora, we participated and witnessed the changes in the nature in all four seasons. Besides the changes we observed and recorded, we were also making a magic, using our imagination and a camera...

Autori filma su učenici 4. razreda, članovi sekcijske animacije OŠ „Jovan Jovanović Zmaj“ Sremska Kamenica.

The authors of this film are the pupils from the 4th grade of Primary School „Jovan Jovanovic Zmaj“, Sremska Kamenica (next to Novi Sad).

BILO JEDNOM PRE DRVETA

ONCE UPON A TREE

HET MEISJE EN DE BOOM

Marlen fan den Verf, Marleen van der Werf,
HOLANDIJA, THE NETHERLANDS, 15 / 2013

Filin je jedanaestogodišnja devojčica koja provodi dane posmatrajući jedan hrast i život

koji treperi oko njega. Jednog dana, neko poseće svo drveće koje je raslo u obližnjoj šumi. Hoće li ista takva sudbina zadesiti i ovog listopadnog prijatelja naše Filin? Divan film o prirodi, prirodnim procesima koji se dešavaju u drvetu i izvan njega, istovremeno i o Filinom emocionalnom svetu – o njenim snovima i strahovima...

Filine is an 11-year-old girl, who spends her days watching an oak and the life vibrating in its immediate vicinity. One day, somebody cuts down all the trees growing in a nearby forest. Will the same fate befall the deciduous "friend" of Filine? It is a beautiful film about nature, the natural processes occurring on the inside and outside of the tree, and also about Filine's emotional world – her dreams and fears.

Pošto je magistrirala biologiju i stekla master iz filozofije na Univerzitetu u Amsterdamu, Marlen fan den Verf je diplomirala i u Engleskoj, stekavši master iz dokumentarnog filma o divljoj prirodi, filmom "Wadland". Ovaj film predstavlja potragu za izgubljenim sećanjem na detinjstvo u prostoru plime-oseke, gde se vreme i prostor neprekidno menjaju.

After finishing her Msc in Biology and Ma in Philosophy at the University of Amsterdam, Marleen van der Werf graduated in the UK for her Ma in (wildlife) documentary filmmaking with the film 'Wadland'. This film represents the search for a lost childhood memory in a tidal area where time and space continually change.

Manuel Mateo Laharin Manuel Mateo Laharin, ŠPANIJA, SPAIN, 7 / 2015

Prizivamo reči Alisija Janesa Kasija koji veli da je bio zaveden magijom začaranih ostrva i iskoristili smo priliku da istražujemo prisustvo čoveka na ovom arhipelagu i da prodremo dublje od očiglednoga, i dalje od ostrva kao ostrva.

We conjure the words of Alicia Yanez Cossio to be seduced by the magic of the enchanted islands and we take advantage of the opportunity to inquire about the human presence in the archipelago and to deepen beyond the obvious, beyond the islands.

GORE NA FARMI

UP ON THE FARM

Dijana Nerven Diane Nerwen, SAD USA, 16 / 2011

Kratka eksperimentalna dokumentarna etida poziva gledaoca na zabavno putovanje kroz istorijske ulice Budimpešte.

Gore na farmi je meditacija na temu zelenog urbanog prostora i pejzaža post-industrijskog doba, koja istražuje uzgoj organske hrane na krovu manjem od pola hektara, u Bruklin Grejndžu, Nju Jork. Spajajući izgrađeno i prirodno okruženje, ovaj video dokumentuje jedan maštoviti eksperiment u novom razvoju zelenih površi u urbanom prostoru, i daje uvid u pokušaj da se krov na stogodišnjoj zgradi, bivšoj fabrici, pretvori u održivi pastoralni raj.

A meditation on urban green spaces and the post-industrial cityscape, Up On The Farm explores Brooklyn Grange, a one-acre rooftop organic farm in New York City. Connecting the built and natural environments, this video documents an imaginative experiment in green urban redevelopment, and takes a look at an attempt to transform the roof of a century-old former factory into a sustainable, pastoral haven.

Dijana Nerven je video umetnica i predavač medijskih umetnosti. Svoje radove je pokazivala na međunarodoj sceni, uključujući berlinski festival, Njutorški video festival u Linkoln centru, Dve nedelje dokumentaraca u Muzeju modern umetnosti u Nju Jorku, Gugenhajmov muzej, Moderna Tejt galerija London. DRUGA STRANA OBALE

ON THE OTHER SIDE OF THE SHORE

Mari Danijel i Fabien Mazoko Marie Daniel, Fabien Mazzocco, FRANCsKA FRANCE, 14/2013

Izložene hirovima vetrova i mora, dine su prirodna životna sredina u stalnom kretanju. Obično ih prelazimo kad idemo na ocean, ali nikad stvarno ne poglednemo njihov čudni pejzaž... Divljina, Pustinja i Život! Ako ovaj proctor očuvavamo divljim, to će nas zaštititi od oluja i od plima.

Subject to the whims of the winds and the sea, the dunes is a natural environment in perpetual motion. We use to cross the dunes when we go to the ocean, but we never take a real look into this strange landscape... Wild, Desert and Alive! Keeping wild this area protects us of storms and high tides.

Mari Danijel i Fabien Mazoko rade u duetu već pet godina. Odradili su zajedno 7 filmova. Ono što ih spaja jeste volja da na prirodu usmere jedinstven, poetičan pogled, daleko od formatiranja kakvo se često nameće „životinjskom dokumentarcu“. Nakon studija biologije i ekologije, Fabien je upisao IFFCAM, školu filma o životinjama, koja je osnovana u Poatjeu 2004. U toj školi je upoznao i Mari, koja ima magistraturu iz filozofije (sećanje na Boju kao racionalni objekat) i stekla je interesovanje za kreativni dokumentarac.

Marie Daniel et Fabien Mazzocco travaillent en duo depuis 5 ans. Ř leur actif, 7 flms et plusieurs travaux en commun. Leur point de rencontre est la volonté de poser sur la nature un regard poétique et singulier, loin d'un formatage souvent induit dans le genre «documentaire animalier». Apres avoir suivi des études de

biologie et d'écologie, Fabien rejoint l'IFFCAM, une école de cinéma animalier née en 2004 près de Poitiers. C'est dans cette école qu'ils se rencontrent avec Marie, qui de son côté, a une maîtrise en philosophie (mémoire sur la Couleur comme objet relationnel) et un intérêt accru pour le documentaire de création.

ENERGIJA 11105

ENERGY 11105

Vladzimir Taukačov Uladzimir Taukachou, SAD USA, 8.20 / 2013

Energija 11105 je neverbalni filmski portret jednog tajnovitog mesta – groblja brodova koje se nalazi na Stanton Ajlendu u Nju Jorku. Tu je jedna od najbrojnijih kolekcija istorijskih brodova u SAD: Svaki od njih ima svoju ličnu životnu priču, ali mnoge od tih priča su nestale sa posadom i kapetanima. Ovaj kratki dokumentarac otkriva kompleksne slojeve materijala o gradnji tih brodova. Delimično ovo je i njihov osobeni jezik, koji film istražuje na vizuelni način.

Energy 11105 is a non-verbal cinematic portrait of a mysterious place – the boat graveyard located in Staten Island, New York. This is in

the one of the largest collections of historical boats in the United States. They all have their own life story, but many of these stories have disappeared with the crew and captains. This short documentary reveals complex layers materials of boats' constructions. This is part of their unique language, which the film explores visually.

Vladzimir Taukačov je rođen i odrastao u bivšem Sovjetskom savezu, a iz totalitarne Belorusije emigrirao je u SAD sa nekih dvadesetak godina. Vrhunski snimatelj, koji se pecijalizovao za filmove sa scenrijem, bez scenarija, dokumentarce, igrane, kratek i duge. Svoju jedinstvenu viziju unosi u svoj posao, a probleme rešava koristeći i to što je živeo u dva suprotna sistema, u komunizmu i kapitalizmu.

Uladzimir Taukachou born and raised in the former Soviet Union and immigrated to the US from totalitarian Belarus in his twenties. An accomplished cinematographer specializing in scripted, unscripted, documentary, fiction, short and feature films. He brings his unique vision to his work and problem solving having lived in two opposite systems communism and

capitalism.

ŽENE PRAVE “LOSOMESIN”

WOMEN AT WORK “LOSSOMESSINE”

Nata Linas Žiro Nata Lunas Giraud, TOGO
TOGO, 3 / 2014

Autor nam otkriva jedan izvor prihoda i industrije kojim se bave seoske žene u Africi, čime zarađuju za život. Učešće žena u proizvodnji hrane zavisi od vrsta žitarica. U ovom slučaju to je sirak, koji se nakon nekoliko dana prerade pretvara u piće poznato pod nazivom "Losomesin".

The author leads us to the discovery of an

income generating activity and an industry carried out by rural women in Africa that contribute to their survival. The participation of women in food production has fluctuated according to various types of grain. This is the case of sorghum, after several days of processing moves to steep a drink commonly called "Lossomessine".

Ja sam Nata Linas Žiro, mladi zaljubljenik u film iz Benina, montažer dokumentarnih filmova, grafički dizajner, slobodnjak. Prošle godine moj film Žene na poslu bio je odabran za Festival filmova o životnoj sredini u Port Nefu u Francuskoj, kao i za takmičenje Snimam posao koji volim. Lično imam sposobnost da planiram, da anticipiram zadatke, da proračunavam raspoložive resurse i da ih implementiram. Sanjam o tome da dobijem neku stipendiju da nastavim studije u Evropi.

I am Nata Lunas Giraud, young Beninese passionate lover of the cinema, the documentary film Editor and Graphic Designer freelance. Last year my film Women at work was also selected to the Film Festival on the Environment Canada Port Neuf in France and

also in the Contest I filmed the job that I like. Personally I have the ability to plan, anticipate tasks, taking into account available resources or implement them. I dream about finding a scholarship to continue my studies in Europe.

ZEMLJA VODE

LAND OF WATER

TIERRA DE AGUA

David Botome David Bottome, VENEZUELA
VENEZUELA, 11:44 / 2014

Po mitologiji naroda Warao, njihov dom u Delti je Raj a oni su u tom "Srcu Sveta" Odabranji. Vrao znaliči Ljudi z kanua, I njihovi životi su najbliskije vezani za kanue. Kako dan prolaze, mi otkrivamo njihov svet iz naših kanua, delimo njihov intimni proctor I njihov smeh, I više nemamo sumnje u to da je Raj parvo lično ime za ovu Zemlju Vode.

According to the Warao mythology their home

in the Delta is Paradise and they are the chosen ones on this "Heart of the World". Warao means Man of Canoes and their lives are intimately linked to them. As days go by and we discover their world from our canoes, we share their intimate space and their laughs, we have no doubt that Paradise, is the proper name for this Land of Water.

David kombinuje 25 godina iskustva kao profesionalni pilot, kad je vozio i po 300 putnika u najbržim komercijalnim avionima na svetu, sa mistikom navigacije, jedrenja, i prelaska Atlantika i mnogih drugih mora. Više puta je predstavljao Venezuelu na međunarodnim takmičenjima u skijanjanju u Argentini, Čileu i Švajcarskoj. Tokom poslednjih 10 godina, uzimajući plaćene godišnje odmore, proputovao je oko 6.000 km veslajući u kajaku i to uglavnom sam.

David combines 25 years of experience as a professional pilot, flying 300 passengers from aircraft to the fastest commercial aircraft in the world, with the mystique of navigations to sail with which crossed the Atlantic and many other seas. He represented Venezuela several times in international competitions of ski mountaineer-

ing in Argentina, Chile, and Switzerland. Over the past 10 years journey rowing in his kayak and mostly alone, about 6,000 km from Pto.

IZMEĐU

IN BETWEEN

Rolf Štajnman Rolf Steinmann, NEMAČKA
GERMANY 2015 / 8

U jednom udaljenom kutku sveta postoji živi relikt iz preistorijskog doba. Biće koje je nekad tumaralo severnim ravnicama zajedno samamutima i sabljastim mačkama. Ovaj kratki film je rezultat mog putovanja u njegov svet, svet nepoznat većini od nas. "Ovo mi je prvi kratki film. Izfinansirao sam ga u potpunosti sam, i to mi je pružilo priliku da se bavim sopstvenim idejama o svetu divljine, bez ijdognog kompromisa. Film o mojoj omiljenoj vrsti na zemlji: mošusno goveče." Temeljan film o dramatičnom zagrijevanju Arktika.

In a remote corner of the world a living relic from a prehistoric age still exists. A creature that once roamed the northern plains alongside

mammoths and sabertooth cats. This shortfilm is the result of my journey into his world. A world unknown to most of us. "This is my first short film project. Funded completely by myself, this film offered me the chance to commit to my own ideas of a wildlife film without compromise. A film about my favorite species on Earth: Musk Oxen." An elaborated film about the dramatic warming of the Arctic.

Rolf Štajnman je snimatelj iz Minhenha, specijalizovan za rad u divljoj prirodi. Zovu ga i sekvencer, jer uglavnom radi za BBC, Odeljenje prirodne istorije. U 2014 je prvi put dao svoj doprinos i Diznijevoj produkciji. Filmovi iz prirode, i prvi put je nominovan za Emi nagradu u kategoriji Najbolji snimateljski rad. Sa debitantskim filmom „Između“ ispunio je svoj davnjašnji san da po sopstvenim idejama radi film iz prirode.

Rolf Steinmann is a wildlife cameraman from Munich, Germany. He's a so called sequence worker who mainly shoots for the BBC Natural History Unit. 2014 led to his first contribution to a Disney Nature movie and the first Emmy nomination for Best Cinematography. With his debut short film "In between" he fulfilled his long

term dream to work on his own idea of a nature film.

INVAZIJA

THE RISING

Nik Džordan Nick Jordan ŠVAJCARSKA
SWITZERLAND, 2014, 15'

Invazija je kratki dokumentarac koji opisuje jednu invazivnu stranu vrstu, džinovski svinjski korov (džinovski kravlji peršun) kako ubrzano osvaja niže delove rečnih obala u severnoj Engleskoj. Delimično prirodna istorija, delimično naučna fantastika, Invazija se odlikuje sjajnom atmosferom u zvučnoj podlozi, i predstavlja странog uljeza kao opasnu, otrovnu pretjeru i jedno impresivno, prirodno čudo.

The Rising is a short film which depicts an invasive alien species, Giant Hogweed, as it rapidly colonizes a lowland riverbank in northern England. Part natural history, part

sci-fi, The Rising features an atmospheric soundtrack score, and presents the alien interloper as both a dangerous, toxic menace and impressive, natural wonder.

Nik Džordan je umetnik čija delatnost obuhvata video, slikarstvo, crtanje, pronadene objekte, skulpture i publikacije. Džordanov rad se usredstruje na odnose između prirodnog sveta i višestrukе kulturne istorije. Nik Džordan često sarađuje sa kolegom umetnikom Džekobom Kertrajtom, a živi u Mancesteru. Radovi su mu izlagani po svetu. A 2013 je odbran za rezidencijalni boravak i porudžbu novog filma, sa Džekobom Kertrajtom, u Headlands Centru umetnosti, blizu San Franciska. Džordanov film Prirodna kuća Inc. (prikazan na prethodnom Srem Film Festu) dobio je nagradu za najbolji film na Festivalu kratkog filma u Svedenborgu, London, 2013.

Nick Jordan is an artist whose practice encompasses video, painting, drawing, found-objects, sculpture and publications. INDONEZIJA: POKRETNA ŠUMA

INDONESIA: MOVING FOREST

Janet Šalter i Emanuel Kokelua Emmanuel Coquelou, Yanete Shalter, FRANCUSKA FRANCE 27 / 2015

Palmino ulje izaziva masovno krčenje šuma: čitavi ekosistemi i domorodačke zajednice su ugrožene. Na Borneu i Sumatri, lokalne NVO pokazuju nam kakvu akciju preduzimaju da bi se borili sa tom apsurfom destrukcijom i da pomognu da verujemo kako se svaka inicijativa broji.

Palm oil causes massive deforestation: entire ecosystems and indigenous communities are threatened. In Borneo and Sumatra, local NGOs show us how they take action to counter this absurd destruction and help us believe that every initiative counts.

Za Janet Šalter i Emanuel Kokelua Pokretna šuma je prvi dokumentarac. "Radili smo na njemu samo nas dvoje, od a do z. naša ošrema bila je veoma lagana tokom dva meseca snimanja na Borneu i Sumatri, a takođe smo sami radili i postprodukciju, u sopstvenoj produkciji. Danas je Pokretna šuma prikazna u više od 25 zemalja. Taj pozitivni način pokretanja pitanja životne sredine je deo uspeha našeg projekta."

Moving Forest is a first documentary for Yanette Shalter and Emmanuel Coquelou. "We worked on it just the two of us, from A to Z. Our equipment was very light during the two months filming on Borneo and Sumatra, and we also made the post-production by ourselves in self-production. Today, Moving forest is screened in more than 25 countries. The positive way of raising environmental issues is part of the success of our project."

BUCKET LAKE EIMERSEE

Sven Bode Sven Bohde, NEMAČKA
GERMANY 2015

Nastanak jezera od kofe vode u Ekenferdeu je toliko legendaran i tako čudnovat da se morao ispričati kroz film. Koristeći veoma jednostavan pribor, Mihail Pakšis, zadužen za konzervaciju u gradu, stvorio je jezero koje je postalo zaštićeni rezervat, sa ogromnim brojem raznovrsnih biljaka i životinja.

The genesis of the bucket lake in Eckernförde is so legendary and so strange that you have to tell it in a movie. Using simple tools Michael

Packschies, the conservation officer of the City, created a lake that has become a worth protecting habitat with enormous plant and animal diversity.

Neoliberalna ideologija, ljudska prava i ekonomija globalne industrije čokolade sudaraju se u ovom izlaganju tamne strane čokoladne producije Latinske Amerike. Istražujući fer trgovinu iz perspektive Ngabe farmera iz Paname, ovaj film posebno ističe neusklađenost rastućih zahteva za čokoladom u razvijenim zemljama i podsticaja malim proizvođačima po svetu, kojima se previše obećava a premašo daje.

Neoliberal ideology, human rights, and the economics of the global chocolate industry collide in this exposé of the dark side of Latin American chocolate production. Examining Fair Trade from the perspective of an Ngábe farmer in Panama, the film highlights a pronounced disconnect between the rising demand for chocolate in developed countries and the over-promised, under-delivered incentives to small producers around the world.

Herman Mači Germán Machí ŠPANIJA, SPAIN 3 / 2015

Dva prijatelja traguju za smisalom života razmatrajući njegova ograničenja i absurditet koji predstavlja smrt...

Two friends looking for the meaning of life considering its limits and absurdity that represents death.

Herman Mači je filmadžija, pisac i reditelj, rođen u Tortosi, a od 2011. nastanjen je u Barceloni, gde razmišlja i radi punom parom u svom ofisu. Kad ne razmišlja i ne radi, obožava da razgovara o osećanjima i da čisti kuću. Nagađa da je bio misao pre no što je postao materija, ali nije baš siguran u to. Herman je jednom prilikom otkrio pravu ljubav, no – bila je to baš kamera. Od tog dana nikad nije

prestao da razmišlja o njoj. Ima zelene oči, u horoskopu je Bik, i veoma je uredan kao osoba.

Germán Machí is a filmmaker, writer and director born in Tortosa and currently located in Barcelona since 2011, where he thinks and works hard in his office. When not thinking or working, he likes talking about feelings and cleaning his house. He guess that he was a thought before becoming matter but he is not sure about it. Germán once discovered true love but it was just a camera. Since that day he has never stop thinking about it. He has got Green eyes, he is Taurus and he is a neat person.

MINIJATURE PRIRODE SRBIJE, ZADIVLJUJUĆI SVET INSEKATA

THE MINIATURE WORLD OF SERBIAN NATURE, AMAZING WORLD OF INSECTS

Ilija Dimitrijević Ilija Dimitrijevic, SRBIJA SERBIA 20.12 / 2016

Kada pomislimo na prirodu Srbije obično se setimo divnih pejzaža, plavog neba prošaranog belim oblacima, bistrih planinskih potoka, zelenila oko nas, mističnih šuma, mirisnih planinskih livada i sl. Ali nije samo to priroda. Postoji čitav skriveni svet, nama nevidljiv, iako gazimo po njemu—minijaturni svet insekata.

When we think about the nature of Serbia, we usually remember the wonderful landscapes, the blue sky with scattered white clouds, the clear mountain streams, the greenery around us, mystical forests, fragrant mountain meadows, etc. But there is more than this to nature. There is a whole hidden world, almost invisible for us, although we wade on it – amazing world of insects.

Ilija M. Dimitrijević (1958., Beograd) bavi se profesionalno reklamnom, turističkom kao i fotografijom prirode preko četrdeset godina, a poslednjih desetak video dokumentovanjem života prirode, težeći da, skromnim sredstvima, dostigne kvalitet vodećih svetskih produkcija u ovoj oblasti.

For over 40 years Ilija M. Dimitrijevic (1958., Beograd) deals professionally with advertising,

tourist and nature photography, and in the last decade, with modest means, he made video documents of the nature life, tending to reach the quality of the leading world productions in these fields.

NANUK – ŽIVOT SA POLARNIM MEDVEDOM

NANUQ – LIVING WITH THE POLAR BEAR

Anelize Posberg Anneliese Possberg,
NEMAČKA/SAD, GERMANY/USA 5 / 2014

Led na Boforovom moru već godinama se neprekidno topi. Polarni medvedi zato sve više traže hrana na kopnu. Tu se susreću sa ljudima iz plemena Inupiat. Hoće li to dovesti do novih konflikata između ljudi i divljih životinja?

The ice of the Beaufort Sea is melting continuously for years. The polar bears search therefore increasingly their food on land. There they meet the people of the Inupiat. Will this lead to new conflicts between man and wild animal?

Zajedno sa svojim mužem iz Nemačke, slavnim fotografom, Anelize Posberg je pre deset godina počela da putuje i putuje, da bi lovlila lepote po svetu. Tragajući za načinima kako da prenese utiske i iskustva koji su je prožimali, a koje je stekla tokom tih putovanja, Anelize je otkrila strast prema pokretnim slikama. I prihvatala izazov: počela je da snima lude i u njihovom prirodnom okruženju živi svet divljine.

Together with her German husband, an awarded photographer, Anneliese Possberg started to travel extensively to haunt the beauties of the world ten years ago. Looking for means to convey the overwhelming impressions and experiences gathered during their travels Anneliese discovered her passion for the moving images. Thus she took up the challenge of filming people and wildlife in their environment.

NEZABORAVNIK

REMINDER

Srđan Vukajlović Srđan Vukajlovic, SRBIJA SERBIA 16.48 / 2015

Film prati rad umetnika Branka Lazića dok oblikuje reljefe – nezaboravnike od gline, posvećene čobanicama i čobanima sa Tare kod Zaovina, gde je kao dete provodio letnje raspuste. Sledimo ga zatim dok završene reljefe nosi i kači na drveće kod livade na kojima su se napasala stada iz njegovog detinjstva. Dok sa njim obilazimo opustele livade u okolini Zaovina, prate nas fantomski zvuci blejanja ovaca, zvona klepetuša i glasovi i dozivanja čobana i čobanica i mešaju se za zvukom jesenjeg vetra.

Okačeni nezaboravnici ostaju kao Brankovi lični spomenici ljudima i vremenu kojeg više nema.

The film follows the artist Branko Lazic while shaping the reliefs – reminders in clay, dedicated to the shepherdesses and shepherds from Tara mountain, where, in his childhood, he used to spend summer vacancies. Then he goes to hang the reliefs to the trees next to meadows where the herds use dto pasture in his childhood.

Razmatranje situacije u životnoj sredini, njene veze sa onim što jedemo, i važnosti znanja o kvalitetu i poreklu hrane, iz ugla eksperata visokog kulinarstva, štampe, biologije, inženjeringu i administarcije. Uloga agriculture

kao alternativa tradicionalnom ribarstvu pokazuje ohrabrujući trend da smanji pritisak na sve više zagadlena mora i reke, kao i na upravljanje urbanim otpadom i pretvaranjem u sirovine. Pozvani smo da se osvestimo o situaciji živote sredine i o potrebi da se olakša uticaj sa strane industrije hrane, uz osnaživanje posvećenosti ekološkom rastu rečnih vrsta. Ovo je naredni korak ka održivoj gastronomiji.

A consideration on the environmental situation, its relationship with what we eat and the importance of knowing the quality and origin of our food, from the viewpoint of experts in haute cuisine, press, biology, engineering and the administration. The role of aquaculture as an alternative to traditional fishing shows an encouraging trend to reduce pressure on increasingly polluted seas and rivers, as well as the management of urban waste into raw material. We're invited to become aware of the environmental situation and the need to ease the impact made by the food industry, strengthening the commitment to ecological growth riverine species. OPASNOST: GORE JE STRUJA!

DANGER OVERHEAD POWERLINES

Mija Malarki Mia Mullarkey, IRSKA
IRELAND, 24 / 2013

Opasnost: gore je struja! je savremena priča o Davidu i Golijatu. Ovaj kratki dokumentarac prati Terezu Trisi u borbi da od najveće irske poludržavne korporacije, Electricity Supply Board, zaštiti hiljadu drveta zasađenih ručno. Krajem 2011 bila je i zatvorena, i to sa 65 godina, jer nije dozvolila ESB pristup na njenu zemlju kako bi sekli drveće. Priča na jedan

intiman način prati Terezino putovanje tokom i nakon zatvora, i pruža nam mogućnost da neumornog borca i advokata prirode, Terezu, pratimo izbliza.

Danger Overhead Powerlines is a modern day story of David and Goliath. This short documentary follows Teresa Treacy as she battles against Ireland's largest international semi-state corporation, the Electricity Supply Board, to protect the thousands of trees she planted by hand. In late 2011 she was sent to prison at the age of 65 for not allowing the ESB access to her land to cut down her trees. This story intimately follows Teresa's journey during and after prison, giving an inside perspective to a relentless fighter and advocate of nature.

Mija Malarki je rediteljka iz Dabline. 2011 je osnovala Ishka Films, a njeni radovi su osvojili dosta nagrada i nominacija na domaćim i međunarodnim festivalima. Mija takođe pravi i muzičke spotove, i digitalne sadržaje, i mnogi od tih videoa osvajali su nagrade i stekli veliku popularnost.

PLEN

THE PRAY

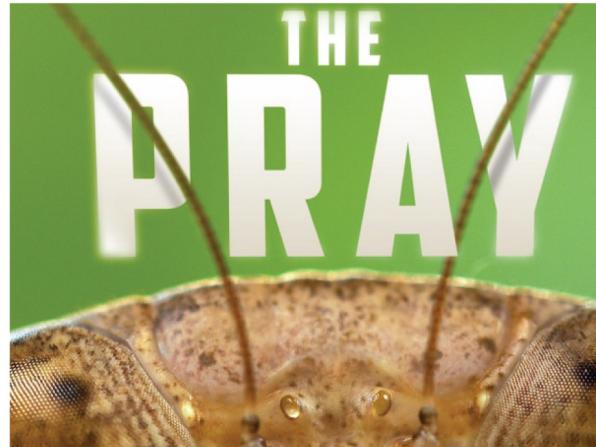

Aleks Džounz Alex Jones, SAD USA, 11.24 / 2014

Plen će vas uvući u šumoviti svet i prostor bogomoljke zvane „mrvi list“. Ekipu filma posebno ponosnom čini to što smo napravili neverovatne, jedinstvene i dinamične kadrove. Kamera leti kroz šumu zajedno sa muvama, svedoči o lukačkom ponašanju između bogomoljke i sokola, i dočarava iskustvo lova kakvo dosad niste videli. Uz korišćenje zapanjujuće snimateljske tehnike, otkrivamo istinu o lovnu i posmatramo neverovatni način na koji bogomoljka proždi svoj plen. Sve je tu što bi i film fantastiji trebalo da ima, a stvarno je! Ovo je dakle jedna akcionala avantura iz sveta divlje prirode.

The Pray will immerse you into the forested world of the dead leaf mantis. This action packed film boasts incredibly unique and dynamic shots. Fly through the forest with flies, witness the cunning behavior between the mantis and the hawk and experience a hunt like you've never seen before. Using stunning cinematography we divulge the truth of a catch and behold the incredible way a mantis devours its prey. It's everything a fantasy movie would have except this time, it's real. This is an action adventure popcorn movie for wildlife films.

Aleks Džounz je dvaput nominovan za Panda jednom osvojio nagradu na svetski priznatom Vajldskrin festivalu. Smatra se jednim od nekolicine vrhunskih snimatelja iz Kalifornije. Aleks specijalizira ekstremnu i makro fotografiju iz divljine.

Alex Jones Two-time nominee and Panda Award winner at the world renowned "Wildscreen Film Festival", Alex Jones is considered as one of the few topside cinematographers located in California. Alex specializes in topside and macro wildlife cinematography.

UNA MIRADA

Analija Frejzer Analia Fraser, ARGENTINA
ARGENTINA, 12/2014

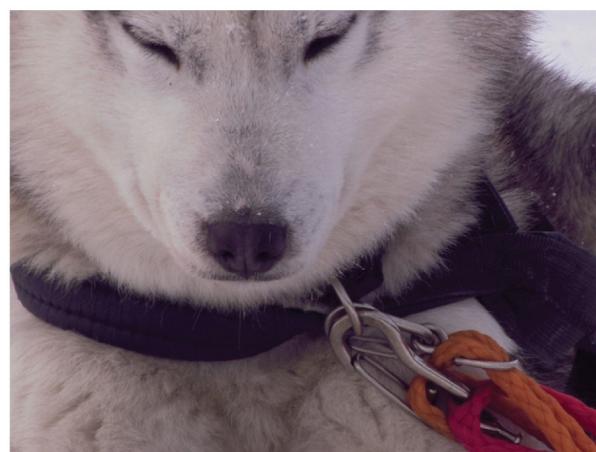

Hugo i Leandro su dve osobe postavljene po standardu otac i sin. Žive u izolovanoj dolini blizu Ušuaiae. Dan za danom, veoma loše vremenske prilike, oni žive sa više od 100 pasa koje dresiraju. U tom kontekstu, oni daju novo značenje prirodnom prostoru koji nudi jedinstven osećaj veze između čoveka i prirode.

Hugo and Leandro are two individuals

identified by the standards of father and son. They live in an isolated valley near to Ushuaia City. Day after day, in a hostile weather, they live with more than one hundred dogs that they tame. In this context, they give a new meaning to a natural space that offers a unique sense to the relationship between men and nature.

Analija Frejzer (1986, Ognjena zemlja, Argentina). Diplomirala Film i TV režiju i Audio-vizuelni komunikator; stekla zvanje profesora audiovizuelnih komunikacija. Koralni grebeni pokrivaju površinu od oko 300.000 kvadratnih kilometara kontinentalnog praga mora i okeana. Dobar način da razumemo koralni grebeni i kako on funkcionise jeste da ga posmatramo kao veliki grad gde hiljade stanovnika svakodnevno cirkuliše i bori se za opstanak. Metropolis pod vodom.

Coral reefs cover about 300,000 square km of

the world's shallow marine areas. A good way to imagine a coral reef is to think of it as a bustling city or community, where thousands of inhabitants coming and going, carrying out their business. In this sense, a coral reef is like a metropolis under the sea.

Dragan Milutinović je dogodiošnji snimatelj, podvodni snimatelj i montažer. Karijeru podvodnog snimatelja započeo je u Egiptu u Engleskoj producentskoj kompaniji "Blue Eye FX". POEM TO RIOTINTO

POEMA A RIOTINTO

Laura Cabrera Dijas i Sira Cabrera Dijas Laura and Sira Cabrera, ŠPANIJA, SPAIN 7:58 / 2016

Prostor Rio Tinta podrhtava od lepote, moći i istorije. On reflektuje duplu eksploraciju: ljudskih bića i zemlje, od pre jedno 5000

godina pa do danas. Muzika i songovi označavaju osećanje i ritam, gde su slike organizovane tako da oduju počast rudarima Rio Tinta, Uelva, Španija. Boja krvi u reci, kiselost, zemlja u kojoj se boje menjaju, sve nadahnjuje i pamti ogromne napore ljudskih bića što gledaju kroz ove vode.

The human landscape of the Riotinto mines trembles for its beauty, its power and its history. It reflects the double exploitation of human beings to themselves and to the earth, from 5,000 years ago until today are. Music and song marked the feeling and rhythm where images are organized to pay tribute to the miners Riotinto, Huelva, Spain. The color of blood in the river, acidity, color grading land, everything inspires and remember the great effort of these human beings that look in their waters.

Laura Cabrera Dijas i Sira Cabrera Dijas (1947, Kaseres, Španija) su sestre bliznakinje nastanjene u Madridu. Obe su diplomirale Likovnu umetnost na Univerzitetu Komplutense u Madridu.

POTOK KROKODILA

THE CROCODILE CREEK

Sai No Ham Sai Naw Kham, MIJANMAR,
MYANMAR, 17.47 / 2015

Kako se lagano odvija burmanska legenda o džinovskom krokodilu Nga Moe Jeik – a to ime nosi i ovaj divni, jezivi potok – neki od ljudi koji koriste ovaj rukavac reke Jangon iskazuju svoju ovovremenu zaštitu za životnu sredinu u jednom od ikoničkih vodenih puteva velikog grada.

As the Burmese legend unfolds of the giant crocodile Nga Moe Yeik – the namesake of this

beautiful if eerie-looking creek – some of the people who use this branch of the Yangon River voice their modern-day environmental concerns about one of the city's iconic waterways.

Sai No Ham je odrastao u opštini Tangjan u severnom Šanu. Kad se preselio u janogon, 2007, studirao je hemiju i počeo da radi kao urednik za Čar Mjuzik Prodakšn. Prvi dodir sa filmskim stvaralaštvom bio je kad je snimao donaciju selu Palaung koju je pravio njegov ujak; Palaung nastavalja da ga oduševljava i Sai se nuda da će mu se vratiti i tamo jednog dana napraviti dugometražniigrani film. Trenutno radi na portretu sestre svoje bake, koja živi u Mong Hetu u severnom Šanu. Pošto je napravio jedan kratki dokumentarac pre no što se pridružio Jangonskoj Filmskoj Školi, ovaj, Potok krokodila označava njegov drugi rediteljski rad.

Sai Naw Kham grew up in Tangyan Township in northern Shan. Having moved to Yangon in 2007, he studied chemistry and began working as an editor for Charr Music Production. His first brush with filmmaking came when he filmed his uncle's donation to a Palaung village;

the Palaung continue to fascinate him and he hopes to return to one day make a feature-length film. He is currently working on a portrait of his grandmother's sister who lives in Mong Het in northern Shan. After making one short documentary before he joined YFS, The Crocodile Creek marks his second film as director.

PRLJAVI POSAO

DIRTY BUSINESS

Vadim Dumeš Vadim Dumesh, IZRAEL
ISRAEL 15 / 2015

Filmsko putovanje prati tradicionalnu proizvodnju uglja razbacanu po Izraelu i po palestinskim teritorijama. Prljavi posao vodi gledaoca putem od naoko prosperitetnog Kibuca na samom severu Izraela do osiromašenog severa Zapadne obale, do industrijskih područja u centralnom Izraelu, i konačno do ekonomski prestonice, Tel Aviva, rasvetljavajući ekonomske odnose između dveju strana, i ispitujući različite likove duž tog puta.

A cinematic journey following the traditional coal industry scattered around Israel and the Palestinian Territories. 'Dirty Business' takes the

viewer on the road trip from seemingly prosperous Kibbutz in the very north of Israel, to the impoverished north of West Bank, to the industrial areas in central Israel, and finally to the economic capital – Tel Aviv, shedding light on economic relations between the two sides, and exploring characters along the way.

Izvorno iz Latvije, Vadim je stekao diplomu na Stokholmskoj školi ekonomije u Rigi. U Tel Aviv seli 2006, da bi studirao na Školi menadžmenta Rekanati na Univerzitetu Tel Aviv. 2008 je primljen u produkcioni deo Škole za film i televiziju "Sam Špigel" u Jerusalimu. Rasipanje vode pogoda sve zemlje sveta, naročito najindustrijalizovanije, i zbog rasipanja a i zbog ekonomske neefikasnosti, kao i ljudske i društvene nepravde. U siromašnim krajevima sveta, pristup vodi je prava himera i čak prouzrokuje dalje siromaštvo, očaj i bolestine. Neophodno je da se infrastruktura obnovi, dakle: ne rasipajte vodu, raspoređujte je efikasnije, ali je isto tako neophodno osvestiti ljudе da brižnije i racionalnije koriste ograničene resurse.

Wasting water affects all countries of the world, especially the most industrialized, accounting, as well as a waste and a cause of economic

inefficiencies, also human and social injustice. In poor areas of the world access to water is a chimera and causes even more poverty, despair and spread of diseases. There needs to redo the water infrastructure, so do not disperse water and distribute more efficiently, but it is also necessary to make people aware to a more careful and rational use of a limited resource.

Alesandro Brućini Alessandro Bruccini,
ITALIJA, ITALY 5.31 / 2015

Film je zamišljen kao putopis, duž svih etapa Vija Francigena, od Pontremolija do Radikofanija. Vija Francigena je uobičajeno ime za hodočasničku putanju koja vodi iz Francuske do Rima, iako se smatra da je njena početna tačka mnogo dalje, u engleskom katedralnom gradu Kenterberiju. Kao takva, ruta prolazi kroz Englesku, Francusku, Švajcarsku i Italiju. U Italiji se zove Vija Francigena (drum koji dolazi iz Francuske). U srednjem veku bio je to važan drum i hodočasnička staza za one koji su želeli da

poseste Svetu More i grobove apostola Petra i Pavla.

The work has been designed as a travel reportage, across the Tuscan stages of the Via Francigena, from Pontremoli to Radicofani. The Via Francigena is the common name of an ancient road and pilgrim route running from France to Rome, though it is usually considered to have its starting point much further away, in the English cathedral city of Canterbury. As such, the route passes through England, France, Switzerland and Italy. The route was known in Italy as the 'Via Francigena' [the road that comes from France]. In mediaeval times it was an important road and pilgrimage route for those wishing to visit the Holy See and the tombs of the apostles Peter and Paul.

Alesandro Brućini (Pontedera [Pisa], 1979), nastanjen u Firenci, reditelj koji se bavi i pisanjem scenarija i postprodukcijom. Njegovi dokumentarci i kratki i srednjometražni filmovi birani su i dobijali nagrade na mnogim festivalima po svetu.

Horizont je film o talasima: talasima otvorenog pejzaža mora, talasima dok ptice u jatima klize iznad kamenih ograda i polja, vječnim talasima mora. Poetičan, skoro snolik film, inspirisan slikarstvom i muzikom. Tišinom svojom, on odaje počast obalskom pejzažu i podseća koliko je važno štititi takve krajoblike, i to tako da nam se omogući da ih iskusimo kao široke, otvorene i kulturno raznorodne pejzaže. Horizont je snimljen u Jarenu i Listi, u jugoistočnoj

Norveškoj.

Horizon is a film about waves: waves in the open coastal landscape, waves as the flocking birds slide above stone fences and fields, eternal waves of the sea. It is a poetic, almost dreamlike film, inspired by painting and music. In its quiet way, it is a tribute to the coastal landscape and a reminder of the importance of protecting these landscapes in ways that permit us to experience them as wide, open and diverse cultural landscapes. Horizon is filmed in Jæren and Lista in Southwest Norway.

Skule Eriksen radi na filmu već 35 godina. Pravi dokumentarce i kratke igrane filmove, ali radi i kao montažer dugometražnih igranih filmova, reklama i dokumentaraca. Mnogi od njegovih filmova bave se prirodom, i odnosom ljudi prema njoj. U svojim najnovijim filmovima, Fjord, Zmsko svetlo i Horizont, Skule iskušava načine na koje obično slikamo prirodu.

Skule Eriksen has worked in films for 35 years. He has made documentaries and short films, and has also worked extensively as a film editor

on feature films, commercials and documentaries. Many of his films are about nature, and people's relation to nature. In his last films, Fjord, Winter Light and Horizon, he tries to challenge the way we portrait nature in films.

HERCEGOVINA

HERZEGOVINA

Zdenko Jurilj, Ivo Čolak Zdenko Jurilj, Ivo Čolak, BiH B&H, 15 / 2015

Hercegovina je nikla iz kamena. Cijela je povijest vezana za njegovu snagu. Voda je taloženjem i kalciniranjem u pećinama sačuvala slojevite tragove čovjekova postojanja. Kamen i voda su od prapovijesti bili povezani. U ovom je filmu Hercegovina prikazana kroz male stvari, male ljudе, rituale bliske svakom čovjeku, bez pompoznosti i veličanja ljudi i događaja.

Herzegovina emerged from the stone. Entire history is connected to its strength. By sedimentation and calcinations in caves, water preserved multi-layered traces of human existence. Water and stone have been connected since the prehistory. In this film

Herzegovina is described through little things, humble people, rituals close to each person, without pomposity and glorifying of people and events.

ŠDT: ŠTO DALJE OD TASTATURE

AFK: AWAY FROM KEYBOARD

AFK: PREČ OD KLÁVESNICE

Patrik Kováč Patrik Kováč, SLOVAČKA, SLOVAKIA, 15 / 2015

Ovaj film ne prikazuje samo jednu mladu devojku nego i tananu liniju između slobode i neodgovornosti. Aleksandra odlazi iz gradskog

života i pokušava da živi slobodno. No, da li je njen život zaista prava sloboda? Ili se možda radi o neodgovornosti i strahu od odgovornosti?

This film showing not even one young lady, but also a fine line between freedom and irresponsibility. Alexandra gets out from city life and she tries to live freely. But is her life true freedom? Or is it just about irresponsibility and fear of responsibilities?

Patrik Kováč (1992) iz Slovačke još studira na Akademiji umjetnosti u Banskoj Bistrici, na odseku za dokumentarni film. Njegov film ŠDT: Što dalje od tastature je krenuo u uspešan festivalski život. Uz to, tokom svojih studija Patrik snima puno školskih vežbi.

Patrik Kováč (1992) from Slovakia, still studies at Academy of Art in Banska Bystrica, department of documentary film. His film "AFK: away from keyboard" started its successful festival life. Besides that he shots many short film exercises during the study.
